Re: Lombardi Construction Review

Date: 10/03/2017

To whom it may concern:

---

Lombardi Construction did a great job for us in the completion of the renovation and expansion of a colonial home we were flipping in NJ in late 2016\early 2017. They are very professional and knowledgeable and worked in a timely and efficient manner to complete the work. All the work was done correctly, to spec and on time and budget. They did quality work throughout.

Lombardi Construction also has a good working knowledge of construction, architecture and the real estate market\business and offered advice on various issues that helped to improve the property and increase its marketability while not increasing our costs. We would definitely consider doing business with them again on our future projects. They comes highly recommended.
